To-day's games—Wheeling at New Castle, Washington at Youngstown, Saginaw at Toledo, Jackson at Port Wayne.

The New Castle team got its second win yesterday afternoon and managed to whip Wheeling in the second game of the series. Well, so long as "ours" win as many games as they lose while abroad, there is no Wheeling "kick a corner" and Washington beat again. Get out your strong box, McKewen, and buy a new team.

Special Dispatch to the Intelligencer.

NEW CASTLE, Pa., May 7.—The game to-day was an exciting one and just close enough to keep up the interest at all times. McGearry was put in to pitch for the visitors, but he had absolutely no control of the ball, and after he had sent four men to first on balls and one hit had been made off him, and New Castle piled up even runs without a man being out, Johnson was put in the box and the side soon retired, but not without making another run.

There were some hard hits in the game, the home runs of J. Sowders, over right fence and the one of Gallagher over left being the principal features in that line.

The play of the day was made by Rickert, who captured with one hand a high fly against the left field fence from Sowders' bat. He was cheered and was obliged to tip his hat repeatedly. The two errors of Whaley were made almost at the same time and consisted of a fumble and a bad throw.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of disease are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the only remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. One afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

Man's View

Of Marriage.

"IS MARRIAGE A FAILURE?"

It is not uncommon for men to bewail the fact that marriage so seldom means a real companionship—that man and wife are separated by difference of taste, of mental outlook, of general interest in life. It is perhaps even more common to hear women blamed for who is called a breach of contract in the marriage relation. If the wife be delicate, run-down, nervous and irritable, if her smile and her spirits have taken flight, it worries her husband as well as herself. Even worse symptoms may follow—the woman suffers from sleeplessness and fainting spells, her head is in a whirl, her back aches, and she has that awful crowding-down feeling in the abdomen. It depends on the woman whether she will permit these troubles to continue day by day leading to a life of misery.

Thousands have been cured by taking Dr. Pierce's Favorite Prescription, and why not you? A healthy woman is always interesting; she passes for a beauty because she is happy, and her good spirits are contagious. Good nature goes with health; irritability and peevishness with sickness.

Those who suffer from the derangements, disorders and diseases of the sex should remember that Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has, for over a quarter of a century, made the diseases of women a specialty. Send twenty-one (21) cents (in one-cent stamps) to him, at above address, for his great medical book of 1000 pages profusely illustrated with woodcuts and colored plates.

It contains photographs, names and addresses of a vast number who have been cured. correspond with them and learn how they cured themselves without having to consult a doctor.
